To Avoid the “FLU” get plenty of rest, exercise and eat a balanced diet. Avoid close contact with people who are sick. Stay home from work and school if you are sick and encourage others to do the same. Caring for the ill, use a cool vaporizer to help relieve symptoms of congestion or fever. Give medications to relieve symptoms as prescribed by your health care provider. Antibiotics don’t cure the flu. NEVER give Aspirin to anyone under age 20.
